How to Install the Oculus App on your PC

To use your Meta Quest Link cable, Meta Quest Air Link, Oculus Rift S or Oculus Rift, you'll need to download the Oculus Desktop app on your Windows PC. Before you install the Oculus Desktop app, check to make sure that your hard drive has at least 9.29GB of free disk space.

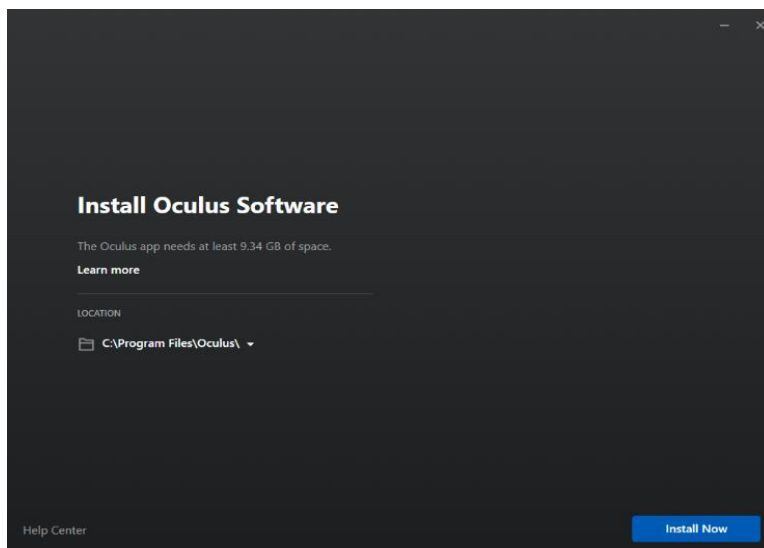

1. Go to the [app download](#) page.
2. Find your product and click **Download Software**. The Oculus app will begin downloading to your computer.

3. Open the Oculus Setup app from the Downloads folder on your computer and click **Get Started**.

4. Select the drive you want to install the Oculus app to by clicking the dropdown underneath Location.

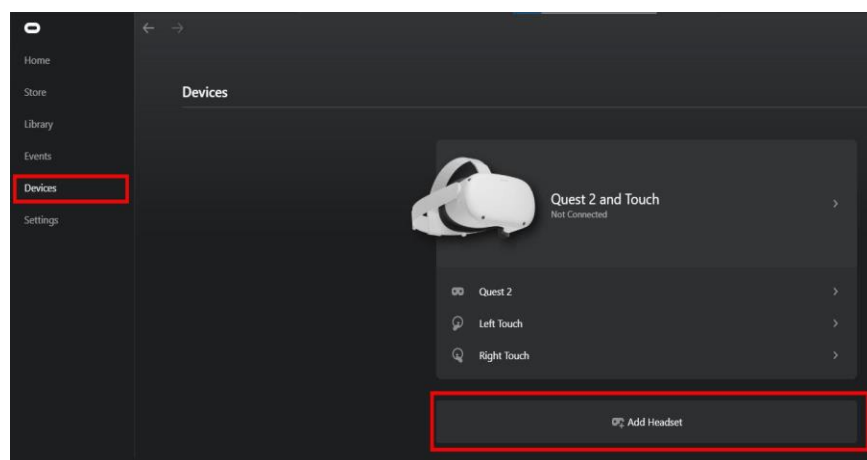

5. Click Install Now. When the installation is complete, log in to or create your account.

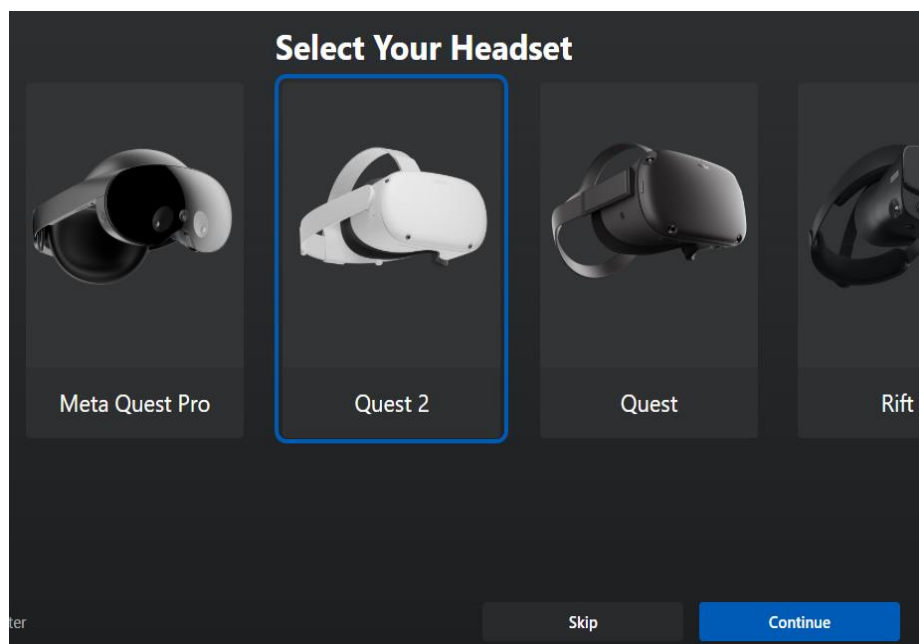

How to Connect your Oculus Device to a PC via Link

For this part you'll be tethered to your computer and won't be able to move around as freely. For this, you'll need a USB-C cable.

1. **Make sure your Oculus device is turned on. In the Meta Quest app, select Devices, and then Add Headset.**

2. **Select your headset and press continue.**

3. Select Link (Cable) as the connection method

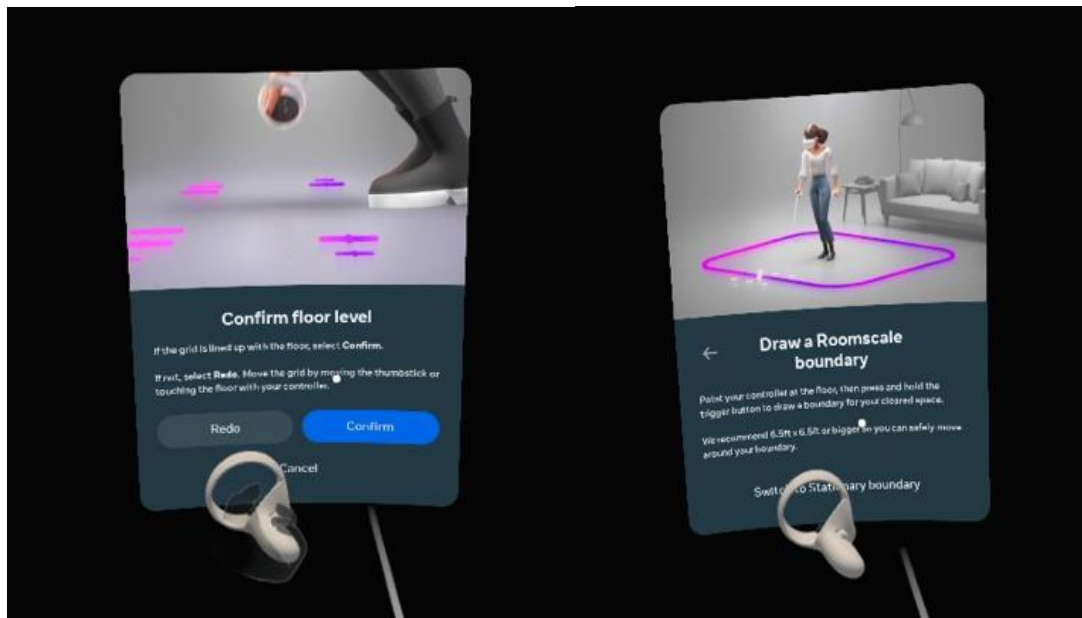

4. Plug one end of the cable into your headset, and the other end of the cable into your PC.
5. Click continue until the connection is completed.

How to Start the Game

First of all, download the game from the link below.

1. Clear the area around you
2. Put on the headset
3. Follow the instruction to define the area around you

4. In the VR world, open the quick settings menu

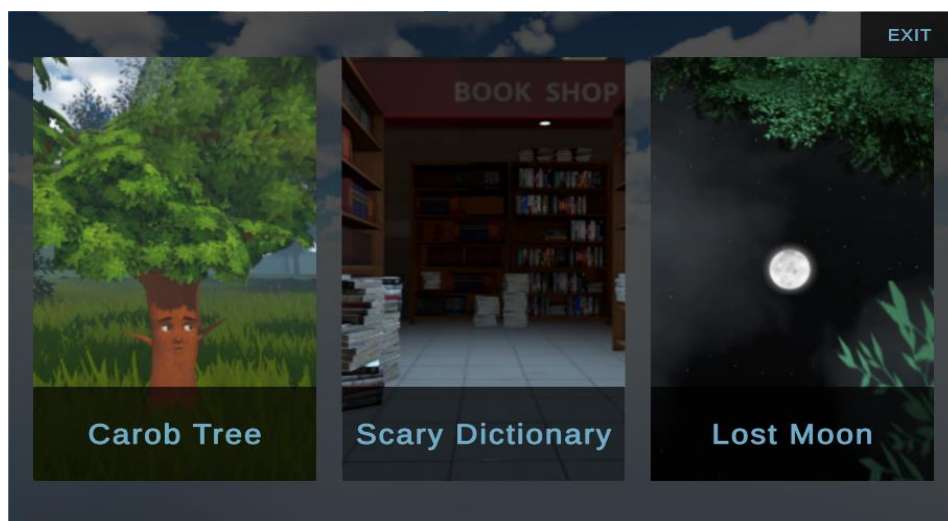

5. Select Oculus link

6. Remove the headset and select the game from your PC
